The Sun for 1881.

this newspaner throughout the year to come every body will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure ctime and eresight. The Sun long ago discovered the golden mean between sedundant fulness and unsatisfactory bravity.

If Much of that sort of news which depends less upon its recognized importance than upon its interest to markind. From morning to morning The Sun prints a continued story of the lives of real men and, women, and of their deeds plans, loves, hates, and troubles. Their story is more varied and more interesting than any romance that was ever devised.

varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and fresh ness, originality, accuracy, and decorain in the treatment of every subject.

IV. Honest comment. The Sun's habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republica.

VI. Absolute independence of partizan organizations, but unwavering loyalty to true Democratic principles. The Sun believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which now exists. The year 1881 and the years immediately following will probably decide this supremely important contest. The Sun believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily Sun, a four page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or \$6.50 s year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is \$6 cents a month, or \$7.70 a year, postage paid.

Deposits made on or before July first, 1880, draw
interest from that date, and by order of the Chan
ceilor, are invested in bonds of this city or State,
or of the United States.
